

## **C. Krenek Tap Corridor Overlay District (KO)**

The purpose of this overlay is to provide for consistent development of office, retail, and residential uses in the area of the new City Centre Complex. The City Centre Complex is located on the south side of Krenek Tap Road, and will contain several municipal and public facilities having high quality urban design characteristics. This overlay, along with all other applicable requirements of the Unified Development Ordinance (UDO), shall apply to all properties on the north and south sides of Krenek Tap Road.

### **Uses:**

Permitted uses shall be those as established in the underlying zoning districts with the exception that duplex dwelling units are not allowed anywhere in the overlay district.

### **Design Standards:**

The following standards apply to all development, except single family residential development, along the Krenek Tap Corridor in addition to other design standards contained within the UDO.

#### **1. Parking:**

No parking or circulation aisle shall be located between a building and the adjoining right-of-way of Krenek Tap Road. Where no building exists and parking is to be installed adjacent to a right-of-way, there shall be a thirty foot (30') setback from the right-of-way line to the parking pavement, within which a three foot (3') high screen of shrubs, fencing wall or earthen berm shall be installed.

#### **2. Architectural Design:**

All building facades facing Krenek Tap Road shall have architectural treatments similar and complimentary to the front façade of the building. All exterior walls visible from the public ROW shall meet be finished with one or more of the following materials: brick, native stone, cast stone, textured concrete masonry units, fiber/cement board, solid wood planking, stucco or synthetic stucco. Metal siding is prohibited on all exterior walls. There shall be no flat roofs.

Use of alternative materials may be approved by the Design Review Board, if such materials meet or exceed the standards herein.

When an existing structure is enlarged or modified, the DRB may approve materials other than the standard materials above, if this allows the new construction to be more compatible with existing materials, with the exception that metal siding is not allowed.

#### **3. Reflective Glass:**

For non-residential buildings no more than fifty percent (50%) of any façade facing Krenek Tap Roadway may include reflective glass. For the purposes of this ordinance, reflective glass shall be defined as glass having a reflectance of greater than ten percent (10%).

**6. Fencing:**

Any fencing visible from the public designated roadway or public area shall be decorative wrought iron or tubular steel, a picket fence or alternative similar products approved by the Design Review Board. Fences along the right-of-way shall not be solid but shall allow visual access into the development. The materials limitation referenced above do not apply to fences required for screening as specified in this UDO.

**4. Sign Regulations:**

Only attached building signs and low profile signs meeting the requirements of the UDO shall be permitted. Building signs shall not obscure other building elements such as windows, cornices, decorative details, etc.

**Design Standards:**

The following standards apply specifically to single family and townhome residential development along the Krenek Tap Corridor in addition to other design standards contained within the UDO applicable to single family development.

**1. Front Setback:**

Residential lots adjacent to Krenek Tap right-of-way shall be oriented so that the front facades of individual units or dwellings face Krenek Tap Road, if there is sufficient property frontage to do so. The front setback of these units shall not exceed fifteen feet (15'). This does not preclude residential street access to Krenek or pedestrian access.

**2. Front porches:**

Every front façade visible from Krenek Tap Road shall contain a front porch extending along at least one half of the front façade. These porches shall be large enough and useable for outdoor seating and not solely decorative.

**3. Parking:**

No driveways or locations for parking shall be allowed in the yard areas facing Krenek Tap Road or along Krenek Tap Road itself. Rear parking and access shall be required.

**4. Architectural Design:**

All exterior walls visible from the public ROW shall be finished in the following materials: brick, native stone, cast stone, textured concrete masonry units, fiber/cement board, solid wood planking, stucco or synthetic stucco. Metal siding is prohibited on all exterior walls. Alternative materials may be approved by the Design Review Board, if the alternative materials meet or exceed the standards of the materials listed above. The primary material shall not exceed seventy-five percent

(75%) of the façade. The façade calculation excludes windows and doors. There shall be no flat roofs.”
