Letters

Thanks for support

I want to thank the members of the College Station City Council for demonstrating support for the safety of our international students and the improvements of the Northgate area. The council's commitment to replacing the emergency phones, adding lighting in areas where it's lacking and building new sidewalk areas is greatly appreciated.

We are grateful the council members care for the safety of the students in College Station and look forward to working with the City Council more throughout the year.

JIM CARLSON, '05
