Ref: Uniform Stormwater Guidelines Development

Dear Mr. Smith:

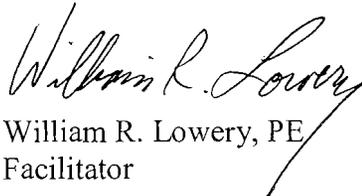

I certainly have enjoyed working with you and Linda Huff on new stormwater design guidelines for the BCS community during recent months.

As we have discussed, several factors have prevented the program from moving as quickly as everyone expected. As a result it is necessary to amend our agreement at two points, its term and its dollar limit. I expect that continuation to the end of the year (December 31, 2005) and increasing the dollar limit by \$5,600 (from \$24,400 to \$29,000) will allow sufficient time and budget to reach your goal. Of course, earlier completion should avoid any need to revisit the agreement.

The enclosed amendment document will adjust our original Memorandum of Agreement with the forgoing stipulations. Please execute it as appropriate and return it to my attention as soon as you can.

Thank you for your confidence in our ability to help you reach important objectives in your innovative program.

Sincerely,

William R. Lowery, PE
Facilitator

c: Linda Huff, City Engineer, Bryan
Howard McCann, Engineering Program Manager
